

NEXPRIENG INSIGHT360

Real-Time Monitoring & Analytics Platform

CONNECT. MONITOR. ANALYZE. ACT.

Monitor critical equipment and utilities in real time - from anywhere.

Nexprieng Insight360 connects industrial equipment, utilities and field data to a secure cloud monitoring platform, giving plant teams clear visibility for faster decisions and improved operational control.

FROM FIELD DATA TO ACTIONABLE INSIGHT

Field Equipment & Sensors → Industrial IoT Gateway → Secure Cloud → Nexprieng Insight360

KEY FEATURES

- Real-Time Dashboard
- Live Parameters
- Historical Trends
- Reports
- Alarm Management
- Email Notifications

BUSINESS BENEFITS

- Real-time visibility from anywhere
- Faster response to abnormal conditions
- Improved operational efficiency
- Reduced manual logging
- Better data-driven decisions
- Scalable across equipment and sites

TYPICAL APPLICATIONS

Electrical Panels	Compressors	DG Sets	Utilities
Energy Parameters	Pressure, Temperature, Flow, Power & Energy	Electrical Parameters, Fuel Level, Runtime & Operating Status	Water, Gas, Electricity, Steam & Compressed Air
Energy Monitoring	Process Equipment	Condition Monitoring	Substation & Solar
Consumption, Demand, Power & Energy Performance	Process Parameters, Equipment Status & Performance	Equipment Health, Operating Condition & Critical Parameters	Electrical Parameters, Energy, Power Quality, Equipment Status & Alarms

NEXPRIENG INSIGHT360

Real-Time Monitoring & Analytics Platform

CHOOSE THE RIGHT INSIGHT360 PACKAGE

Start with the monitoring capability you need today. Scale as your requirements grow.

P1 Insight360 PULSE	P2 Insight360 VISION	P3 Insight360 GUARD	P4 Insight360 SENTINEL
Monitor	Monitor + Report	Monitor + Report + Protect	Monitor + Report + Protect + Notify
PACKAGE INCLUDES	PACKAGE INCLUDES	PACKAGE INCLUDES	PACKAGE INCLUDES
Dashboard Live Parameters Trends	Dashboard Live Parameters Trends Reports	Dashboard Live Parameters Trends Reports Alarm	Dashboard Live Parameters Trends Reports Alarm Email Notification
BEST FOR Real-time monitoring & historical visibility	BEST FOR Monitoring with structured reporting	BEST FOR Critical equipment & abnormal-condition monitoring	BEST FOR Remote/unattended operations requiring alerts

PULSE → VISION → GUARD → SENTINEL

MONITOR → REPORT → PROTECT → NOTIFY

WHICH PACKAGE IS RIGHT FOR YOU?

START WITH WHAT YOU NEED. SCALE WHEN YOU NEED.

Start With	Scale Up When You Need
PULSE – Visibility & Trends	Add Reports → VISION
VISION – Monitoring & Reporting	Add Alarms → GUARD
GUARD – Monitoring & Protection	Add Email Notifications → SENTINEL

Flexible packages designed to scale with your equipment, parameters, sites and monitoring requirements.

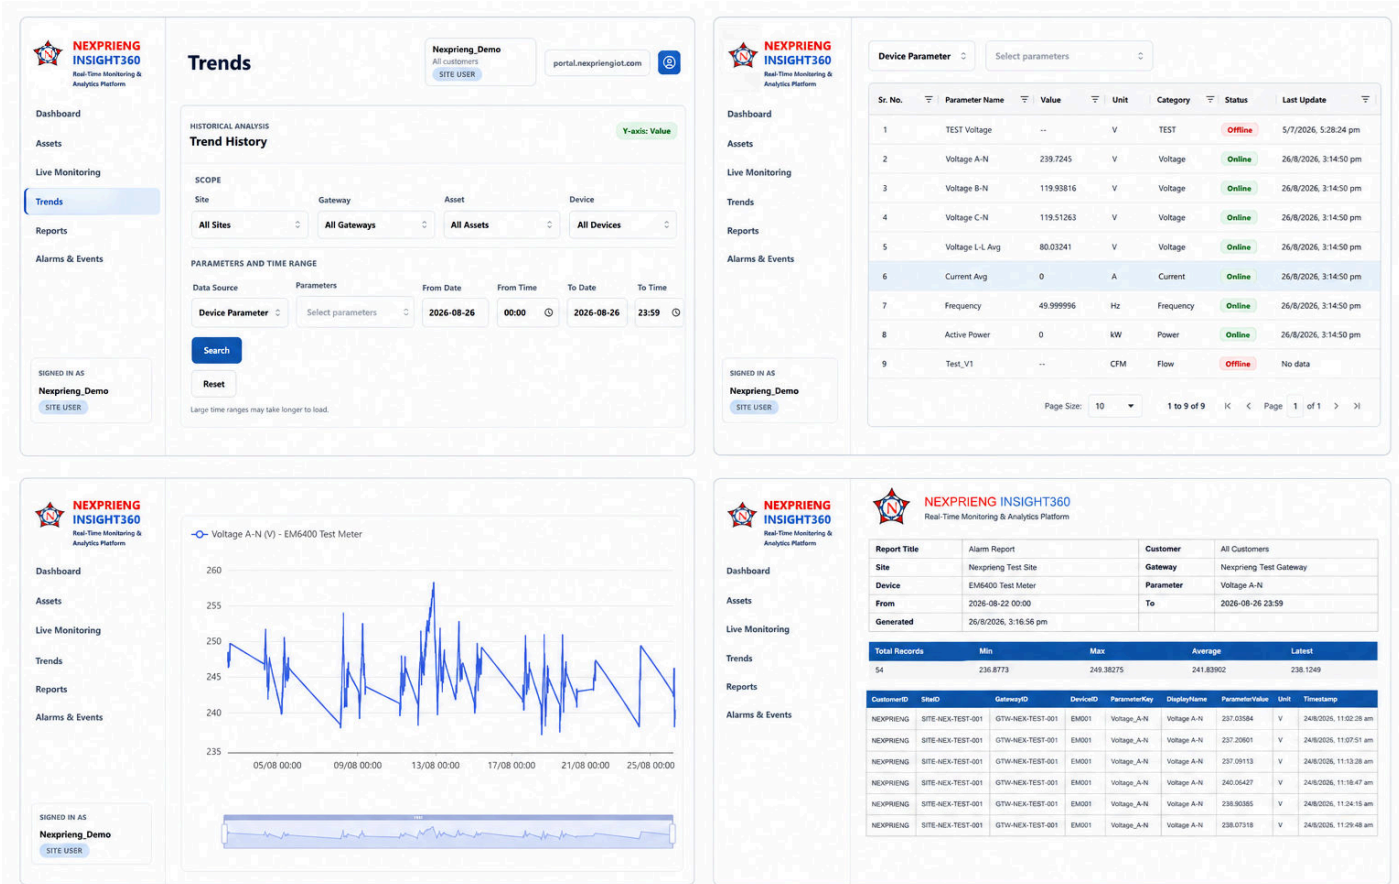

NEXPRIENG INSIGHT360

Real-Time Monitoring & Analytics Platform

SEE INSIGHT360 IN ACTION

One Platform. Multiple Equipment. Multiple Sites. Complete Visibility.

From live parameters and historical trends to reports and alarms, Insight360 turns field data into information your operations team can use.

WHY NEXPRIENG INSIGHT360?

Nexprieng combines industrial engineering, IoT connectivity and cloud monitoring to help customers move from raw equipment data to actionable operational insight.

VISIBILITY

Know what is happening

RESPONSE

Act faster on abnormalities

EFFICIENCY

Use data to improve operations

SCALABILITY

Start small and expand

START WITH ONE EQUIPMENT. SEE THE VALUE. SCALE ACROSS YOUR PLANT.
